Return to school for the Spring 2023 semester

The two week Winter Semester / Spring Semester break for the 2022-2023 school year comes to a close on Monday May 01 2023. On Monday, we start the new semester.

With the sustained implementation of public health safety measures, and the enhanced distribution of pandemic related vaccinations in Canada, our communities are becoming increasingly safe. School settings have long been determined to be the safest of environments and vaccination increases protective measures outside of the school.

We are looking forward a fully uniform presenting student community, and the beginning of another 15 weeks of the collaborative inquiry learning experience.

In the Spring 2023 semester, the school will proceed with increased rigor regarding uniform compliance, and consequences for absences that number greater than what is normal in school settings.

If you have questions please contact your advisor, or the Student Services Coordinator. We are at the school every day, and we are pleased to talk with you.

Continue with staying healthy and safe ... Thank you,

Mr Chowne, Principal

Pattison High School
